SCAN WELDING

COURSE SELECTOR

Use this brochure to compare practical welding pathways, welding bundles and safety courses before requesting a written quotation.

1 Start with fundamentals

Begin with Arc, MIG/CO2, Flux Core or workshop cutting and tool skills.

2 Specialise

Progress into TIG, stainless, aluminium, pipe, visual inspection or coded preparation.

3 Bundle for progression

Use structured bundles where you need a planned basic-to-advanced pathway.

4 Add safety readiness

Combine welding with First Aid, Fire Fighting, Heights, Confined Spaces, Scaffolding and OHS/SHE.

IMPORTANT BEFORE BOOKING

Certificates, provider course certificates, coded-welder tests and Red Seal artisan status are not the same thing. Always request written confirmation of programme route, practical scope, assessment, certificate wording, current price and entry requirements.

WELDING PROGRAMMES

These are broad programme pathways. Practical hours, consumables, PPE, assessment and certificate wording must be confirmed by written quotation.

Programme	Duration	Focus	From Price
CO2 / MIG Welding (GMAW)	4 weeks	Wire-feed welding for workshops and manufacturing.	From R8,500
Shielded Metal Arc Welding (SMAW)	8 weeks	Stick welding for fabrication and structural work.	From R14,500
Flux Core Welding (FCAW)	6 weeks	High-deposition structural welding pathway.	From R12,500
TIG Welding (GTAW)	10 weeks	Precision TIG for stainless, aluminium and specialist work.	From R18,000
Pipe Welding	12 weeks	Pipe-position development and industrial progression.	From R22,000
Underwater Welding (Wet Welding)	16 weeks	Specialist pathway - confirm entry requirements and route.	From R32,000

BASIC TO ADVANCED WELDING OPTIONS

These modules help learners build defined process skills before progressing into specialist TIG, pipe, coded or artisan pathways.

Module / Bundle	Route	Scope	From Price
Basic Arc Welding - SMAW Downhand	Arc / Stick	1F, 2F and 1G carbon-steel foundations.	From R5,148
Advanced Structural Arc Welding	Arc / Stick	3F, 4F, 3G and 4G positional development.	From R11,628
Basic Welding Bundle - Arc Training	Arc Bundle	Basic + advanced arc progression.	From R15,128
Basic MIG Welding - GMAW Downhand	MIG / CO2	MIG/CO2 setup and downhand control.	From R5,528
Advanced MIG Training	MIG / CO2	Additional positions and deeper process control.	From R12,178
CO2 Welding Bundle	MIG Bundle	Basic + advanced MIG/CO2 development.	From R15,928
Basic Flux-Cored Welding - FCAW Downhand	Flux Core	Basic FCAW wire-feed and downhand development.	From R5,288
Advanced Flux-Cored Welding	Flux Core	Vertical, overhead and groove-welding positions.	From R12,178

TIG, PIPE + SPECIALIST OPTIONS

Use these options for precision welding, advanced pipe progression, coded-welding preparation, ARPL support and visual inspection fundamentals.

Module / Bundle	Route	Scope	From Price
Basic TIG Welding - GTAW Downhand	TIG	Foundational GTAW/TIG torch discipline.	From R5,288
Advanced TIG Training	TIG	Advanced carbon-steel TIG position development.	From R12,178
Stainless / Aluminium TIG Plate	Specialist TIG	Specialist plate modules for stainless steel or aluminium.	From R13,028
Advanced TIG Pipe - 5G / 6G	TIG Pipe	Stainless or aluminium TIG pipe development.	From R18,288
SMAW + GTAW Pipe Combination	Pipe	Carbon-steel pipe using TIG root and Stick fill/cap.	From R11,828
Carbon Steel Pipe Welding Bundle	Pipe Bundle	Basic Arc + Basic TIG + pipe progression.	From R20,228
Stainless Steel Pipe Welding Bundle	Pipe Bundle	Advanced TIG + pipe module + stainless TIG pipe.	From R38,058
Engineering Tools & Cutting Processes	Workshop Skills	Cutting, preparation and workshop tool pathway.	Quotation
Gas Cutting	Gas	Oxy-acetylene cutting setup, torch control and safety.	Quotation
Gas Welding	Gas	Torch control, filler coordination and entry fabrication.	Quotation
Grinders & Power Tools	Workshop Safety	Power-tool inspection, cutting, grinding and PPE.	Quotation
Coded Welding Preparation	Advanced	Code-, process-, material- and position-specific preparation.	Quotation
RPL / ARPL Trade Test Preparation	Artisan Pathway	Gap assessment for experienced welders pursuing trade-test readiness.	Quotation

PRICE RULE All prices are FROM prices. Confirm practical hours, consumables, PPE, assessment, VAT, group size and delivery method before enrolment.

Each QR code sits in its own card with dedicated white space so it does not overlap course text.

Main Welding Courses

Full welding pathway

SCAN

CO2 / MIG Welding (GMAW)

From R8,500

Wire-feed welding for workshops and manufacturing.

SCAN

Shielded Metal Arc Welding (SMAW)

From R14,500

Stick welding for fabrication and structural work.

SCAN

Flux Core Welding (FCAW)

From R12,500

High-deposition structural welding pathway.

SCAN

TIG Welding (GTAW)

From R18,000

Precision TIG for stainless, aluminium and specialist work.

SCAN

Pipe Welding

From R22,000

Pipe-position development and industrial progression.

SCAN

Underwater Welding (Wet Welding)

From R32,000

Specialist pathway - confirm entry requirements and route.

SCAN

Basic Arc Welding - SMAW Downhand

From R5,148

1F, 2F and 1G carbon-steel foundations.

SCAN

Advanced Structural Arc Welding

From R11,628

3F, 4F, 3G and 4G positional development.

SCAN

Basic Welding Bundle - Arc Training

From R15,128

Basic + advanced arc progression.

SCAN

Basic MIG Welding - GMAW Downhand

From R5,528

MIG/CO2 setup and downhand control.

SCAN

Advanced MIG Training

From R12,178

Additional positions and deeper process control.

SCAN

CO2 Welding Bundle

From R15,928

Basic + advanced MIG/CO2 development.

SCAN

Basic Flux-Cored Welding - FCAW Downhand

From R5,288

Basic FCAW wire-feed and downhand development.

SCAN

Advanced Flux-Cored Welding

From R12,178

Vertical, overhead and groove-welding positions.

SCAN

Basic TIG Welding - GTAW Downhand

From R5,288

Foundational GTAW/TIG torch discipline.

SCAN

Advanced TIG Training

From R12,178

Advanced carbon-steel TIG position development.

SCAN

Stainless / Aluminium TIG Plate

From R13,028

Specialist plate modules for stainless steel or aluminium.

SCAN

Advanced TIG Pipe - 5G / 6G

From R18,288

Stainless or aluminium TIG pipe development.

SCAN

SMAW + GTAW Pipe Combination

From R11,828

Carbon-steel pipe using TIG root and Stick fill/cap.

SCAN

Carbon Steel Pipe Welding Bundle

From R20,228

Basic Arc + Basic TIG + pipe progression.

SCAN

Stainless Steel Pipe Welding Bundle

From R38,058

Advanced TIG + pipe module + stainless TIG pipe.

SCAN

Engineering Tools & Cutting Processes

Quotation

Cutting, preparation and workshop tool pathway.

SCAN

Gas Cutting

Quotation

Oxy-acetylene cutting setup, torch control and safety.

SCAN

Gas Welding

Quotation

Torch control, filler coordination and entry fabrication.

SCAN

Grinders & Power Tools

Quotation

Power-tool inspection, cutting, grinding and PPE.

SCAN

Coded Welding Preparation

Quotation

Code-, process-, material- and position-specific preparation.

SCAN

RPL / ARPL Trade Test Preparation

Quotation

Gap assessment for experienced welders pursuing trade-test readiness.

SCAN

Visual Weld Inspection Fundamentals

Quotation

Defect recognition and surface inspection discipline.

SAFETY TRAINING PRICE GUIDE

Safety training supports employer records, workplace readiness and site-specific risk controls. Prices are from prices and must be confirmed in writing.

QCTO First Aid Training

From R928

Basic Emergency First Aid Responder - SP-230801

SCAN

Fire Fighting Training

From R528

Initial response and extinguisher skills

SCAN

Working at Heights Training

From R928

Fall protection and rescue-planning awareness

SCAN

Confined Spaces Training

From R928

Entry hazards, controls and emergency awareness

SCAN

Basic Health & Safety Training

From R988

Core workplace safety awareness

SCAN

OHSA / SHE Compliance Training

From R928

Workplace compliance and supervisor awareness

SCAN

Scaffold Erector Training

From R988

Erection, alteration and dismantling awareness

SCAN

Scaffold Inspector Training

From R1,028

Inspection and handover support

SCAN

Important

First Aid wording is being updated from older SAQA 12483 terminology to QCTO Skills Programme SP-230801: Basic Emergency First Aid Responder.

SUGGESTED EMPLOYER PACKAGES

These are planning combinations, not fixed bundle quotations. Use them to decide what to request when training a

Workshop Readiness Pack

Includes: Basic Health & Safety + Fire Fighting + First Aid + MIG/Arc pathway Best for: Fabrication teams, apprentices and workshops

Site Contractor Pack

Includes: OHS/SHE + Working at Heights + First Aid + Fire Fighting Best for: Construction, maintenance and project access

Confined Work Pack

Includes: Confined Spaces + First Aid + Fire Fighting + OHS/SHE Best for: Tanks, vessels, pits, ship repair and shutdown work

Scaffold Access Pack

Includes: Scaffold Erector + Scaffold Inspector + Working at Heights Best for: Access teams, supervisors and appointed persons

Welding Progression Pack

Includes: Basic Arc + Advanced Arc + MIG/CO2 + Flux Core Best for: Learners building broad plate-welding competence

Pipe Specialist Pack

Includes: Basic Arc + Basic TIG + Pipe Combination + safety add-ons Best for: Pipe, maintenance, energy and industrial progression

REQUEST A WRITTEN GROUP QUOTATION

Send learner numbers, course choices, location, dates and whether public or on-site delivery is required.

PRICE + PROGRAMME NOTES

All prices shown are FROM prices and must be confirmed through a current written quotation. Final course fees may vary by learner level, course scope, delivery method, venue, materials, consumables, PPE, assessment, certificate route, group size, VAT treatment and current programme confirmation. Course completion does not guarantee employment, coded-welder status, Red Seal artisan certification, SETA grant funding or B-BBEE outcomes.
